BALANCE POINT OF CUE f/rear w/Shaft: 19 1/8 "

MATERIALS: Black Linen Phenolic/Ebony/Maple/Paduak

NOTES: It is possible to add weight to this cue. There is a flaw in the ringwork closest to the joint in the handle. [Dieckman sayz: "SO SOORRY GI !!] This cue comes with 2 shafts. This cue is one of a kind and NEVER will be duplicated. The maple in this cue is over 20 years old including the shaft wood. This cue is pictured in The 3d Edition of *The Billiard Encyclopedia* [Stein and Rubino, Editors]. The true inlays on this cue's butt [xxx IN NUMBER] were designed and executed by Bill "THE ROOFER" Johnson, although Dieckman did watch him like a hawk as this is the first cue he let Billy free wheel on, design wise. This work was done circa winter 2005/6 after Bill had been working on the pantograph, doing The Master's bidding, since 2001. MSR \$5000
